

### **Addendum Pro Shop Risk Assessment 24/07/2020**

Please refer to the Risk Assessment dated 5 June 2020.

The Government announced on 14 July 2020 that face masks and coverings will be made compulsory in shops in England from Friday 24 July 2020. The only exception to this is for people who have a valid medical exemption certificate.

The Professional shop will therefore be taking the following actions to ensure compliance with the announcement and to enable them to continue trading:-

1. All customers will be checked at the shop entrance that they are wearing a face mask or covering before they enter the shop or swing studio.
2. Communications will be sent to members reminding and encouraging them to bring their own face masks or coverings.
3. If customers want to enter the shop or swing studio but do not have a face mask or covering, the shop have a supply of face masks.
4. A kiosk and desk with facility for accepting contactless payments will be set up by the shop entrance.
