

Newbury & Crookham Golf Club – Covid-19 Housekeeping Rules for the Clubhouse

The clubhouse bars and restaurant are due to reopen from 17 May 2021; this is the planned start date of Step 3 of the Government's Covid-19 Roadmap Recovery plan. The housekeeping rules below will run from this date until 21 June 2021 (the planned date for the start of Step 4 – the lifting of the remaining, Covid-19 restrictions).

We all need to follow these rules for our safety, the safety of others and to ensure our compliance with the Government's Covid-19 guidance and legislation.

1. Hands

Wash your hands for a minimum of 20 seconds and use hand sanitiser before coming into the clubhouse. Avoid unnecessary contact with any objects.

2. Face

Wear a good fitting face mask when entering the clubhouse and only remove it when seated. Please note, face masks are more effective than other face coverings such as scarfs and snoods.

3. Space

Practice social distancing at all times (2 metres where possible) from people you do not live with. You must remain seated at your table and are not permitted to walk around and socialise with others.

4. Track & Trace

If you have downloaded the NHS Covid-19 app, please use the 'Venue check-in' option by scanning our QR code when entering the clubhouse (and Pro shop). Alternatively, please give a member of the house team your name (and contact details if you are a visitor).

5. TableDrop and table / floor plan

Use the TableDrop app to order your food and drinks. The house team will be happy to help if you need assistance. Sorry but no cash transactions can be accepted.

The table and chair floor plan has been carefully thought through. Please do not move any furniture. For the large, round tables the Rule of 6 will apply. Up to 4 people can sit at all the other round and square tables.

6. Navigation and Signage

Follow the arrows, one-way systems, various signs in and around the clubhouse and respect the restricted areas. Please note that the showers in the changing rooms are not in use.

7. Ventilation and Heating

We are working hard to find the optimum balance between having an adequate level of airflow and a comfortable temperature. Only the house team can adjust the opening / closing of doors and windows.

Each person has a duty of care to themselves and to one another so your cooperation is much appreciated in our efforts to keep our clubhouse safe and open.
