

Health & Safety

Safety Notice when playing 17th and 18th holes

Before hitting your tee shot from the 17th white tee please be patient and show consideration for any golfers ahead who are teeing off, or are about to tee off, from the 18th red tee. To avoid the risk of a ball going towards players on the 18th red tee please allow these players to tee and walk off before tee shots are hit from the 17th white tee.

After hitting tee shots on the 17th hole can golfers please avoid taking the unmade path just past the 17th red tee, crossing the road and walking down the right hand side of the 18th hole (except of course you are sure there are no golfers immediately ahead of you).
