

## **HEALTH AND SAFETY NOTICE**

### **Green Keepers Safety Policy**

Green-staff (and other workers) have priority on the golf course at all times.

The staff will be requested to “stand aside” as soon as reasonably possible to allow play to continue.

The protocol is being introduced to provide clarity to everyone sharing the space on the golf course. It is primarily aimed at providing a safe environment for our highly valued staff.

Members/all golfers should be aware if they fail to respect the policy disciplinary action will follow. Staff have been requested to notify management of any instances where reckless shots result in a “near miss”.

Golfers should also be aware that if a reckless shot results in an accident there is a high probability of criminal prosecution/civil litigation. Insurers are unlikely to provide cover in such circumstances!

Please respect the policy and keep our green-staff safe.
